15th KINCON

Kerala Intervention Neurology Conference

18 - 20 September 2026, Calicut

Dear Colleagues,

Greetings from the Board of Stroke & Neurointervention Foundation (SNIF) and joint organising committee of the 7th SNIF Annual Neurointervention Conference (SNIF-ANC) and 15th Kerala Interventional Neurology Conference. (KINCON 2026). The Informal Neurointervention workshops and the KINCON program conducted periodically at Perinthalmanna over the past 19 years, has been a first of its kind program in the country. An exclusive neurovascular and stroke intervention program, conducted in various locations in Kerala over the last 19 years have been inspirational and more or less instrumental in sensitising neurovascular Intervention as a clinical discipline in Kerala for the last two decades. Currently Kerala has one of the largest densities of Neurointervention professionals in India. As the pioneering neurovascular education initiative in Kerala, Stroke & Neurointervention Foundation (SNIF) in 19 years of its journey takes humble credits for the same.

We are happy to inform you that this year again a joint meeting of SNIF-ANC 2026 and KINCON 2026, will be held on 18th to 20th September 2026 at Hotel Tiara, Calicut. On 17th September, there will be a Neurointervention Workshop for the fellows and trainees.

KINCON provides a platform for Neurologists, Neurosurgeons & Neurointerventionists to interact and discuss the science and art of Neurointervention for the benefit of participating residents, fellows and young trainees and apply it for the management of complex stroke cerebrovascular diseases in our patient population. In the format of this meeting after plenary lectures and platform presentations on current topics of cerebrovascular diseases there will be panel discussions with sufficient time given to it to enhance critical learning.

Keeping in line with the tradition, we have arranged a scientific program where short presentations will be delivered by a few eminent faculties on the subject and an experienced and eminent panelist who will discuss the topic for practice guidelines to be communicated to the young fellows and trainees in the field of Neurointervention and Stroke Medicine.

It is our pleasure as well as honour to invite you to this meeting that promises to be a great learning experience.

We look forward to welcome you at Calicut for the joint meeting of the SNIF-ANC 2026 and KINCON 2026.

Thanks and best personal regards,

INTRA CEREBRAL HEMORRHAGE AVM & AV FISTULA

8:00 am – 8:50 am : Registration & Breakfast

SESSION-I

8:50 am – 9:00 am : Welcome Speech

Chairpersons : Prof. Jacob Alappatt, **Dr. Suresh Nair,**
Dr. Noufal Basheer, Dr. Jacob

09:00 am – 9:15 am : Imaging Markers of Hematoma Expansion
Dr. Ummer Karadan

9:15 am – 9:30 am : Post IVT Hemorrhage management
Dr. V.G Pradeep Kumar

9:30 am – 9:45 am : Role of surgery on Anterior Circulation Aneurysm
Dr. Partha Bishnu

9:45 am – 10:05 am : Endovascular treatment of Aneurysm- current concepts
Prof. Shakir Husain

10:05 am – 10:25 am : Ruptured Cerebral Aneurysms – Roller Coster Ride in Neurointervention
Dr. Anand Warriar

10:25 am – 10:35 am : Panel Discussion
Panalists: **Dr.Sivakumar S, Dr.Anand, Dr. Maqsood**

10:35 am – 10:45 am : Tea Break

SESSION-II

Chairpersons: **Prof. Jacob George, Dr. N I Kurian, Dr. Abdul Gafoor,**
Dr. Alexander, Dr. Jithin Antony

10:45 am – 11:00 am : Endovascular Strategies of DACA Aneurysm: Two different morphologies
Dr. Dedy Kurniawan

11:00 am – 11:20 am : Dural AV Fistula classification and management
Prof. Shakir Husain

11:20 am – 11:35 am : Stand alone MMA Embolisation in the management of chronic SDH
Dr. Goutham S P

Award Papers

11:35 am – 11:45 am : Coiling with double micro catheter technique
Dr. Praveen Panicker

11:45 am – 11:55 pm : MMA Embolaisation– Case Series
Dr. Chaithanya Kodoori

15th KINCON

18th September 2026 Friday – Day - 1

INTRA CEREBRAL HEMORRHAGE AVM & AV FISTULA

- 11.55 am - 12.05 pm : Carotid Dissection & stroke
Dr. Chaithanya Kodoori
- 12.05 pm - 12.15 pm : Endovascular Management of a Giant supra clinoid internal carotid artery Dissecting Pseudo Aneurysm using Flow Diversion & Coiling- A case report and Review of Literatures
Dr. Kodeeswaran
- 12.15 pm - 12.25 pm : Challenges in Endovascular treatment of wide neck Aneurysm- Is assisted Techniques really needed in all wide necked?
Dr. Ankit Jain
- 12.25 pm - 12.40 pm : Panel Discussion
Panelists: **Dr. Shinihas, Dr. Sivakumar, Dr. Suresh Nair**
- 12.40 pm - 2.00 pm : Lunch
